

PMP® Exam Prep course

PMP® (Project Management Professional) is a certification exam offered by PMI® (Project Management Institute). A PMP® certificate demonstrates a person's ability to lead projects in any industry using industry standard project management knowledge and skills.

There are 4 easy steps to get PMP® certification:

- Confirm your eligibility for the certification
- Attend PMP® examination preparation course with Uloom Training
- Apply for PMP® examination by completing an application
- Take the exam through PMI® facilitated schedule

PMP® Exam Prep Course:

We offer a comprehensive course that will help you prepare for the PMP® examination within a reasonable time. Our course is based on PMI recommended training material including PMBOK® guide, 7th edition. The course covers necessary project management knowledge, skills, tools, techniques, methods, processes and best practices as follows:

Course Outline (35 hours):

- Introduction to project management
- Project Management Foundation
- Project Management Integration
- Project Management Principles
- Project Performance Domains
- Agile Framework & Methodologies
- Sample Exam Question
- In-class Practice
- Application completion guidance

Course Format Choices:

- Online but Instructor-led sessions (4 hours each) on weekends
- In-class Instructor-led sessions (full-day each) on Saturday or Sunday

Please contact us for details and schedule
